“Celebrate Rotary”

The Object of Rotary is to encourage and foster the ideal of service as a basis of worthy enterprise and, in particular, to encourage and foster:

FIRST. The development of acquaintance as an opportunity for service;

SECOND. High ethical standards in business and professions, the recognition of the worthiness of all useful occupations, and the dignifying of each Rotarian’s occupation as an opportunity to serve society;

THIRD. The application of the ideal of service in each Rotarian’s personal, business, and community life;

FOURTH. The advancement of international understanding, goodwill, and peace through a world fellowship of business and professional persons united in the ideal of service.

OUR OPENING SONG

*I want to wake up in the morning
Where the orange blossoms grow,
And the sun comes peeping
Into where I’m sleeping
And the song birds say hello.
I want to wander in the
orange grove
As I used to long ago,
And go drifting back to Florida
Where the orange blossoms grow...*

This week's program

Cezar Gonzalez
Executive Director
Brevard County YMCA

Last weeks program was presented by our fellow Rotarian Wayne Ivey.

Wayne spoke to us about Personnel Awareness & Self Defense.

Here are 7 Personal Awareness Safety Tips To Remember Wherever You Are!

1. Be fully aware of your surroundings and totally alert as you walk to your car. Avoid being complacent and not paying attention when walking alone. This means avoid talking on your cell phone, or listening to your iPod/MP3 player when going to your car in a parking lot, covered parking garage, or walking alone at night. The distracted or preoccupied person is exactly who an attacker is looking for as his next victim.

2. Have your keys in your hand and ready as you walk to the car. Be prepared to use your keys as a weapon if you are assaulted or attacked. A great secondary weapon would be to carry some type of legal personal protection like pepper spray, mace, stun gun or TASER. Know how to use your keys as a weapon and/or personal protection for self-defense.

3. Remotely unlock only the driver door when near your car. If you have a newer car, you are able to remotely unlock the doors from a certain distance away. Wait until you are near the car before you unlock the driver side door. If you press the remote button more than once it unlocks all doors. You don't want a criminal who may be following or watching you attempt to get into your car. When unlocking your door, always be observant to who is around. Once inside your car, immediately lock the doors.

4. Before getting into your car (especially at night) make sure no one is hiding inside. Carry a loud personal alarm with a flashlight built in so you can easily check inside the car at night. Many people are not in the habit of locking their car doors. They should develop this safety habit. Don't make it too easy for the criminal to find an unlocked car, hide inside, and wait to attack his unsuspecting victim. Always lock your car doors.

5. Don't leave valuables unattended. Criminals love an opportunity and if they see a package or purse unattended they may decide to rip it off. When unloading shopping packages, groceries or strapping your baby inside the car, put your purse in the front seat area first. Always be aware and monitor who is nearby. This can help you avoid being attacked. *Continued on page 3*

Four Way Test

1. Is it the Truth?
2. Is it Fair to all concerned?
3. Will it build Goodwill and Better Friendships?
4. Will it be Beneficial to all concerned?

Rotary = Ethics R Us

6. Be ready to run for your life if confronted by an attacker. If you're going to be shopping for hours, be sure to wear comfortable shoes...and that's not high heels. If you are attacked going to your car, you may not be able to get away quickly if you're wearing 3" high heels. Keep in mind that if attacked your main goal is to disable the attacker enough to quickly get away to safety. And that means running like crazy. Nix the heels for some comfortable shoes. Think safety first.

7. Avoid parking near large vehicles, lots of high shrubbery to hide in, or up close to a building – especially when by yourself. If you are walking to your car alone after dark in an unlit area covered with shrubs, you may become a target for an attacker looking for an easy victim. If you can't find a parking spot and end up parking in a "bad" location, have a trusted friend or ask the mall security to walk you to your car (if you are at the shopping mall).

These seem like such simple common sense tips, but it's amazing how people forget - then end up being a victim of a robbery or criminal attack. Develop your own personal safety plan so these tips are engrained and automatically become a habit. Stay Aware... Stay Alert... Stay Alive!
