“Celebrate Rotary”

The Object of Rotary is to encourage and foster the ideal of service as a basis of worthy enterprise and, in particular, to encourage and foster:

FIRST. The development of acquaintance as an opportunity for service;

SECOND. High ethical standards in business and professions, the recognition of the worthiness of all useful occupations, and the dignifying of each Rotarian’s occupation as an opportunity to serve society;

THIRD. The application of the ideal of service in each Rotarian’s personal, business, and community life;

FOURTH. The advancement of international understanding, goodwill, and peace through a world fellowship of business and professional persons united in the ideal of service.

OUR OPENING SONG

*I want to wake up in the morning
Where the orange blossoms grow,
And the sun comes peeping
Into where I'm sleeping
And the song birds say hello.
I want to wander in the
orange grove
As I used to long ago,
And go drifting back to Florida
Where the orange blossoms grow...*

Left to right Past President George Fayer, Central Florida Blood Bank representative Shanon Ard, Mary Ann Alderman, and Donor Development Coordinator Lillian Belmont.

Florida's Blood Centers (FBC) began in a small, four-room hospital wing providing about 100 units a month for transfusion purposes. Shortly after the start of World War II, as demand greatly increased, Floridians were called upon to build a fully operational blood banking facility. On April 2, 1942, FBC was incorporated as a nonprofit organization founded on the philosophy of people helping others with volunteer blood donations.

Since its inception, FBC has consistently provided the community with a safe and adequate blood supply and maintained a rich history as a pioneer in the blood banking industry. Some of these advancements include the implementation of mobile blood collection units, advanced blood screening processes (such as West Nile Virus) and the establishment of the American Association of Blood Banks and the Florida Association of Blood Banks.

Today, FBC has grown into a sophisticated, state-of-the-art medical facility with dozens of locations and mobile units. FBC is the largest blood center in Florida and is the sole supplier of blood to more than 70 hospitals and health care facilities throughout the state.

Florida's Blood Centers' mission is to provide a safe and adequate blood supply to our hospitals, to support world-class collaborative medical research into human disease, and to improve the quality of life for its employees, partners, donors, and community.

Every day, hospitals throughout Florida need thousands of units of blood. The need for donors is very real. Blood cannot be manufactured. Our hospitals rely on you. Please, DONATE BLOOD and help give someone's story another chapter.
